Unit of prediction
one well-day
Prediction time
00:00 every day
Decision supported
choke and intervention plans
Metric
MAE in m³/d
yesterday's pressure is a valid input
tomorrow's pressure is not
Inputs known before t₀
rates, pressures, choke, last well test, history
Target
next 24 h oil rate
Label confirmed
allocated rate, after the fact
prediction made
t₀ – 30 days
t₀
t₀ + 24 h
days later
