Rebalancing inflates probabilities
no rebalancing · Brier 0.0300
class_weight='balanced' · Brier 0.1246
1:1 undersampling · Brier 0.1246
Observed event fraction
Mean predicted probability (decile bins)
Recalibration restores them
no rebalancing · Brier 0.0300
balanced + isotonic (5-fold) · Brier 0.0311
undersampled + prior correction · Brier 0.0325
Mean predicted probability (decile bins)
